

Broadcasting an anti-Kerry documentary this close to the election can only be viewed as partisan. Should the Sinclair network do this, balance must be obtained by airing a documentary such as "Going Upriver". "Stolen Honor" presents only one political perspective. Media consolidation will require much more extensive regulation should the Sinclair network make such a partisan move, and I will support this effort with my legislators, Senators Leahy and Jeffords, and Congressman Bernie Sanders.

The airways are public. Sinclair's partisan intent is a legal violation of their privilege to access airways. If they continue their intent to air "Stolen Honor" they must be held to a standard where they balance this by airing "Going Upriver".

Sinclair's behavior is a beacon for Federal oversight. The review of such a network's licensure should be extensive, not just a mailed in postcard.

Thank you,
Mrs. William Duncan
Hyde Park, Vermont
